Re: L0438020003 DuPage Co.  
Lenz Oil  
Superfund/Tech

Dear Ms. Tierney:

Per our conversation this morning, please find enclosed a excerpt from the "Modification to RCRA Closure Plan and Basis of Design Report" for Modern Plating Corporation. This is the information upon which I estimated the construction costs of \$1.5 million for a similar cell at Lenz Oil. As we discussed this morning, this is only a rough estimate and physical and engineering constraints at the Lenz Oil site could affect the costs. For example, the water table at the Lenz Oil site may require a design moderately different that which was proposed at the Modern Plating Site. Also, please note that the enclosed information was taken from a Draft document which had not been approved by the Agency in November when I provided you with the verbal estimation of \$1.5 million.

If you have any questions please contact me.

Sincerely,

A handwritten signature in black ink that reads "Gerald E. Willman".

Gerald E. Willman
